In this post, we take a closer look at the role of code coverage in unit testing, determining that code coverage is an important tool but not an end goal.

### Why Do We Unit Test? And What's the Purpose of Code ...

Why Unit Testing? Unit Testing is important because software developers sometimes try saving time doing minimal unit testing and this is myth because inappropriate unit testing leads to high cost Defect fixing during System Testing, Integration Testing and even Beta Testing after application is built. If proper unit testing is done in early development, then it saves time and money in the end.

### Unit Testing Tutorial: What is, Types, Tools, EXAMPLE

Unit testing in .NET Core and .NET Standard. 05/18/2020; 2 minutes to read +14; in this article.NET Core makes it easy to create unit tests. This article introduces unit tests and illustrates how they differ from other kinds of tests. The linked resources near the bottom of the page show you how to add a test project to your solution.
