Non-qualified mortgages are best for borrowers who can't meet the requirements of traditional mortgage loans—such as a 43% debt-to-income (DTI) ratio or a certain credit-score minimum. 1 Freelancers and other types of self-employed borrowers often use these loans, too, as they allow income to be verified in more creative ways, rather than only through W-2s and tax returns.

### **All About Non-QM Mortgages**

To qualify for a mortgage, good credit is essential. Find out your credit score, and be sure to check your credit report carefully for errors since lenders use it to determine if you qualify for a loan—and to decide the interest rate they'll charge you.

### **Things You Need to Know Before You Get a Mortgage**

When you have a regular mortgage, you pay the lender every month to buy your home over time. In a reverse mortgage, you get a loan in which the lender pays you. Reverse mortgages take part of the equity in your home and convert it into payments to you – a kind of advance payment on your home equity. The money you get usually is tax-free.
