Behave Quotes by Robert M. Sapolsky

Behave: The Biology of Humans at Our Best and Worst by neuroendocrinologist Dr. Robert M. Sapolsky is a really long book at 800 pages. It is something truly impressive: a single attempt to comprehensively document the totality of scientific knowledge of human behavior at this point in history.

Behave: The Biology of Humans at Our Best and Worst

A behavior occurs--whether an example of humans at our best, worst, or somewhere in between. What went on in a person's brain a second before the behavior happened? Then Sapolsky pulls out to a slightly larger field of vision, a little earlier in time: What sight, sound, or smell caused the nervous system to produce that behavior?
