Boyd The Fighter Pilot Who

John Boyd may be the most remarkable unsung hero in all of American military history. Some remember him as the greatest U.S. fighter pilot ever -- the man who, in simulated air-to-air combat, defeated every challenger in less than forty seconds. Some recall him as the father of our country's most legendary fighter aircraft -- the F-15 and F-16.

Amazon.com: Boyd: The Fighter Pilot Who Changed the Art of ...

John Richard Boyd was a United States Air Force fighter pilot and Pentagon consultant of the late 20th century. His theories have been highly influential in the military, sports, business, and litigation fields. Boyd inspired the Lightweight Fighter program that produced the successful General Dynamics F-16 Fighting Falcon and McDonnell Douglas F/A-18 Hornet, which are still in use by the United States and several other military powers into the 21st century.

John Boyd (military strategist) - Wikipedia

John Boyd was the top-gun US fighter pilot in the era between Korea and Vietnam. When his Air Force flying days were over -- after returning from Georgia Tech with an engineering graduate degree -- he moved to the Pentagon, designing some of the best fighter aircraft ever flown, and laid the ground work for the "A-" series ground-support aircraft.
