In the area target method employed in the joint munitions effectiveness manual (JMEM), the rectangular cookie-cutter damage function is used instead of the Carleton damage function . When a cookie-cutter damage function represents the lethal area of a weapon, the fractional damage is proportional to the area covered by the damage function, as discussed in the previous paragraph.

Weapon effectiveness and the shapes of damage functions ...

Responding to this challenge, the Joint Chiefs of Staff requested that a joint service working group correct the data deficiencies and prepare a Joint Munitions Effectiveness Manual (JMEM) for air-to-surface weapons. The Army was tasked to be the lead service.
